1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 21 April 2006 has been entered.

2. Claim 2 is allowable over the prior art of record. Claims 3 and 7-8, which appear to be directed to the same species, are no longer withdrawn from consideration since these claims depend from or otherwise include each of the limitations of an allowed claim. However, claims 1, 4-6 and 9-25, directed to one of more of the species shown in FIGS. 1-4, 7-14 and 16-27, remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement with respect to claims 3 and 7-8, applicants are advised that if any claim(s) depending from or including all the limitations of an allowable generic linking claim be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Allison M. Tulino on 28 April 2006.

4. The application has been amended as follows:

IN THE CLAIMS:

- a. Claims 1, 4-6 and 9-31 have been canceled without prejudice or disclaimer.
- b. Claim 7, lines 1-2, "further comprising a rib for limiting" has been changed to --wherein at least one of said ribs limits--.
- c. Claim 7, line 3, "said rib" has been changed to --said at least one rib--.
- d. Claim 7, lines 3-4, "said portion for accommodating said noncontact-type memory" has been changed to --said accommodation portion--.
- e. Claim 7, line 4, "said rib having a certain curvature, said rib" has been changed to --said at least one rib having a certain curvature, said at least one rib--.
